Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 200, Nos. 1 & 2, October 1999

D.A. Nigro, N. Haugaard, A.J. Wein and R.M. Levin: Metabolic basis for contractile dysfunction following chronic partial bladder outlet obstruction in rabbits 1–6

D.J. Morré, M.L. Gomez-Rey, C. Schramke, O. Em, J. Lawler, J. Hobeck and D.M. Morré: Use of dipyridyl-dithio substrates to measure directly the protein disulfide-thiol interchange activity of the auxin stimulated NADH: Protein disulfide reductase (NADH oxidase) of soybean plasma membranes 7–13

L. Golfman, I.M.C. Dixon, N. Takeda, D. Chapman and N.S. Dhalla: Differential changes in cardiac myofibrillar and sarcoplasmic reticular gene expression in alloxan-induced diabetes 15–25

A. Shukla, A.M. Rasik and R. Shankar: Nitric oxide inhibits wound collagen synthesis 27–33

M.A. Manso, A.C. García-Montero, M.D. Tabernero, A. Orfao and I. De Dios: The recovery of acute pancreatitis depends on the enzyme amount stored in zymogen granules at early stages 35–41

M. Yamaguchi, Y. Hanahisa and T. Murata: Expression of calcium-binding protein regucalcin and microsomal Ca^{2+}-ATPase regulation in rat brain: Attenuation with increasing age 43–49

R.S. Mangipudy and J.K. Vishwanatha: Role of nitric oxide in the induction of apoptosis by smokeless tobacco extract 51–57

M. Castillo, F. Amalik, A. Linares and E. García-Peregrín: Dietary fish oil reduces cholesterol and arachidonic acid levels in chick plasma and very low density lipoprotein 59–67

L.-N. Wei, L. Chang and X. Hu: Studies of the type I cellular retinoic acid-binding protein mutants and their biological activities 69–76

I. Khan and M. Ali: Altered expression of the Na^+/H^+ exchanger isoform-3 in experimental colitis: Effect of garlic 77–84

S. Vasdev, C.A. Ford, L. Longerich, S. Parai and V. Gadag: Antihypertensive effect of low ethanol intake in spontaneously hypertensive rats 85–92

H. Löster, T. Keller, J. Grommisch and W. Gründer: Effects of L-carnitine and its acetyl and propionyl esters on ATP and PCr levels of isolated rat hearts perfused without fatty acids and investigated by means of ^{31}P-NMR spectroscopy 93–102

P.S. Devamanoharan, M. Henein, A.H. Ali and S.D. Varma: Attenuation of sugar cataract by ethyl pyruvate 103–109

R. Salto, M.D. Girón, M. del Mar Sola and A.M. Vargas: Evolution of pyruvate carboxylase and other biotin containing enzymes in developing rat liver and kidney 111–117

Y. Rojanasakul, J. Ye, F. Chen, L. Wang, N. Cheng, V. Castranova, V. Vallyathan and X. Shi: Dependence of NF-κB activation and free radical generation on silica-induced TNF-α production in macrophages 119–125

X. Luo, J.W. Celler, A. Berndt: LacSwitch™ Inducible Mammalian Expression System in mouse Swiss 3T3 fibroblasts 127–132

S. Sharma, S.K. Podder and A.A. Karande: Comparative studies on kinetics of inhibition of protein synthesis in intact cells by ricin and a conjugate of ricin B-chain with momordin 133–141

D.W. Schwertz, V. Vizgirda, R.J. Solaro, M.R. Piano and C. Ryjewski: Sexual dimorphism in rat left atrial function and response to adrenergic stimulation 143–153

S. Vasdev, C.A. Ford, S. Parai, L. Longerich and V. Gadag: Dietary vitamin B6 supplementation attenuates hypertension in spontaneously hypertensive rats 155–162

M.C. Herrero, X. Remesar, L. Arola and C. Bladé: Ammonium uptake and urea production in hepatocytes from lean and obese Zucker rats 163–167

A. Dhawan, D. Parmar, M. Dayal and P.K. Seth: Cytochrome P450 (P450) isoenzyme specific dealkylation of alkoxyresorufins in rat brain microsomes 169–176

Short Communication

B.J. Hart, X. Bian, A.G. Williams Jr and H.F. Downey: A method for producing regional hypoglycemia in blood perfused tissue 177–181

D. Kaul and M. Kaur: Receptor-C_k regulates the expression of cyclin-dependent kinase inhibitors (p16; p27) 183–186
